Experience

Trans-Nzoia County Government	**April 2024 - August 2024**
Intern	Kitale, Kenya

🔗 https://transnzoia.go.ke/

- Assisted in collecting, cleaning, and analyzing economic and statistical data using python.
- Used libraries like Pandas, NumPy, and Matplotlib to process and visualize data for policy insights.
- Generated reports and data driven recommendations to support county decision making.
- Collaborated with senior analysts to improve data accuracy and efficiency in government projects.

Independent Electoral and Boundaries Commission	**August 2022**
Polling clerk	Kitale, Kenya

🔗 https://www.iebc.or.ke/

- Managed voter identification and verification using the IEBC electronic voter system.
- Ensured smooth polling operations, assisting voters while maintaining electoral integrity.
- Worked under pressure in a fast-paced environment, collaborating with election officials to ensure a transparent process.
- Accurately recorded and transmitted voting data, ensuring compliance with election procedures.

Education

University of Embu	**September 2021 - present**
Economics and statistics	FullTime

🔗 https://embuni.ac.ke

Projects

Merry-Go-Round-App	**December 2024 - February 2025**
A mobile application	

🔗 https://stanimwangi.me

A modern mobile application designed to manage and streamline group savings and loan activities for members of the Camp Nou savings group. This Android app is built with Jetpack Compose and Firebase, offering a seamless and secure platform for managing group finances. Key features include secure user authentication, real-time transaction tracking, automated payment reminders, and comprehensive financial reporting. The app implements Material Design 3 guidelines for an intuitive user experience.

android, jetpack compose, firebase, kotlin, material design, android application, finance management, youth group

BillSplitter	**June 2024 - August 2024**
A mobile application	

Created an android application using Kotlin and android studio to calculate and split, and share bills via social apps.
